

COMFORTLITE™ WRAP PAD

ComfortLite™ Wrap Pad 36021C

The ComfortLite™ Wrap Pad is a state of the art, lightweight climber pad constructed from a dual layer of compression padding, and a lightweight cuff to accomplish the ultimate fit. Our lightest and most comfortable pad yet!

Features & Benefits:

- 4" wide upper strap features a weighted web-end that creates grip, rigidity, and adds weight to the end of cinch strap making it easier and faster to cinch and uncinch the pad, ensuring a snug fit.
- The dual layer of compression padding, and lightweight cuff were ergonomically shaped to relieve pressure points and direct pressure to non-sensitive areas of leg.
- A ¼" thicker than existing Buckingham Climber Pads.
- The ComfortLite™ cuff is a one-piece design removing the need for additional components traditionally used in current Buckingham Climber Pads.
- No insert necessary.
- Compatible with all BuckAlloy™ Aluminum Climbers.
